1.	The library provides an extensive collection of books across various fields of study in a quiet and well-maintained environment. However, there is a limited selection of books available on skill enhancement, vocational training, ability enhancement, and elective courses offered by affiliated universities under the NEP.	After discussions with faculty members, HODs, and the Director of the Institute, actions were taken to purchase and acquire textbooks by popular and expert authors on various skill enhancement, ability enhancement, vocational, and elective courses for the library
